

5 Pacific Ocean

5.1 UPRs

Note: *These procedures must be read in conjunction with [Part 1 - Introduction and general rules](#).*

Operators may generate and flight plan UPRs across the Pacific Ocean to Australian East Coast Ports, within Australian Administered Airspace that meets the following criteria:

- a) Between the gates and Australian ports the flight plan must be via the required route structure; and
- b) The use of UPRs is restricted to designated UPR Airspace, [Appendix U - UPR Airspace - Pacific and Southern Oceans](#).

Note: *For Trans Tasman (Australia - New Zealand) See [Part 6 Tasman \(Australia - New Zealand\)](#).*

5.1.1 Gates and RTS

5.1.1.1 Domestic gates - inbound gates to Australian ports
